

REMARKS

The Office Action of 06/14/2007 has been carefully considered. Reconsideration in view of the foregoing amendments and the present remarks is respectfully requested.

Claims 3-7 were indicated as containing allowable subject matter, which indication is appreciatively acknowledged.

Claims 1 and 2 were rejected as being anticipated by Ali. Claim 1 has been amended to more clearly distinguish over the cited reference. Reconsideration is respectfully requested.

In particular, claim 1 has been amended to recite in part at least two filters, each comprising a series admittance element and a shunt conductance element. No such feature is believed to be taught or suggested by Ali. Rather, Ali teaches a chain of integrators. Although a first such integrator may be considered to have a filtering effect, it does not comprise a series admittance element and a shunt conductance element as presently recited.

Withdrawal of the rejection and allowance of claims 1-7 is respectfully requested.

Respectfully submitted,

A handwritten signature in dark ink, appearing to read "M. Ure", is written over a horizontal line.

Michael J. Ure, Reg. 33,089
